ARCGIS FIELD MAPS
STANDARD

PEDAGOGICAL OBJECTIVES

Design data collection projects and deploy them in the field with Field Maps.

At the end of the course, participants will be able to:

- Install Field Maps
- Design a data collection project
- Design data entry forms
- Share a data collection project
- Collect data with and without GPS
- View and update data
- Working in connected and disconnected mode
- Synchronize data

TARGET AUDIENCE
General public

PREREQUISITES
Basic computer skills and ArcGIS Online basics

TEACHING RESOURCES
Software license provided: no

Digital training material given to trainees (with concrete examples and practical exercises)

Evaluation questionnaire and end-of-training certificate

DURATION   > 2 days (7 hours of training)

RATES   > By quotation

TERMS AND CONDITIONS
No pre-requisite selection
Dates to be agreed
